**FirePro.
HERO**

Designed for Trained Emergency First Responders

FirePro HERO Manual Aerosol Generators are used by trained first responders and other emergency personnel including firefighters, the police and safety officers. It is an integral tactical tool used in modern firefighting strategies.

Deployment & Usage

FirePro HERO generators are an emergency first responders' tool used in fighting raging and/or hard to get to fires:

- It buys the critical time necessary to prepare for full scale firefighting operations.
- It helps create a path to the source of fire to fight it more effectively
- It ultimately helps to save lives, assets and property.

How the Technology Works

Fire extinguishing is accomplished by the interruption of the chemical chain reactions occurring in the flame, without oxygen depletion.

Environmentally Friendly

As with all FirePro Generators, the FPC solid compound in HERO is friendly to the environment.

FirePro HERO Product Line

■ FP-200M

FirePro HERO Manual Aerosol Generators FP-200M

- Weight (gross): 1620 g
- Mass of FPC Compound: 200g
- Operational discharge time: 15 - 20sec
- Discharge outlets: 1
- Discharge length: 2m
- Height: 150mm Ø: 84mm
- Self activation temperature: 300°C

■ FP-500M

FirePro HERO Manual Aerosol Generators FP-500M

- Weight (gross): 1910 g
- Mass of FPC Compound: 500g
- Operational discharge time: 10 - 15sec
- Discharge outlets: 1
- Discharge length: 2,5m
- Height: 150mm Ø: 84mm
- Self activation temperature: 300 °C

■ FP-1000M

FirePro HERO Manual Aerosol Generators FP-1000M

- Weight (gross): 2240 g
- Mass of FPC Compound: 1000g
- Operational discharge time: 10 - 15sec
- Discharge outlets: 2
- Discharge length: 5m from either outlet
- Height: 200mm Ø: 84mm
- Self activation temperature: 300°C

Method of Use

1

Observe and establish a safe rolling distance.

2

Grip the generator with your dominant hand.

3

Remove the safety pin with a steady pulling motion.

4

Roll or throw into the target area from a safe distance.

The splash-proof, dust-proof and shock-proof FirePro HERO Case can carry up to two HERO generators.

Operational Clause: Product to be handled by professionals or trained individuals as the discharged aerosol is of elevated temperature and thus must be handled with care. Good firefighting practices should be applied under all circumstances.

Fire Classifications

As per EN 2 As per NFPA 10
